P&C

Annual General Meeting

The school P&C held its annual general meeting last night. The P&C has been very generous in supporting the school in 2011. Major contributions were made in particular to the sports fields projects and the re-cabling of the whole school computer network. I thank all members of the P&C for their wonderful support.

I would particularly like to thank our P&C President, Tony Rowan and his fabulous team of executives who have been so committed in their roles to making huge improvements throughout the year for all the students.

The new P&C executive for 2012 is:

(* means re-elected to the position, and
** means new executive position)

President	Tony Rowan*
Vice President	Sarah Tobin
Secretary	Philippa Fourie*
Treasurer	David Satchell
Environment	John Stallman*
SAKG Program**	Deb Grunfeld
Event Coordination	Lida Ghezlbash*

	Allan Kanuk
	Kersten Koelsch

Congratulations to our new executive on their election to their positions. I know that the P&C will be very effective in its support for the new Principal and the school in 2012.

Thank you all again for being so generous with your time, energy, and friendship during the three years that I have been here as Principal at Vaucluse Public School.

Toys 'n' Tucker

Each year thousands of families struggle to make ends meet at Christmas. Luxuries like Christmas lunch and children's gifts are simply out of reach. Anglicare works to ensure that these families do not go without at Christmas. However, they cannot achieve this without the generous support of other community.

Look out for our Giving Tree right outside the office. We are collecting NEW gifts for children and teens and NON-PERISHABLE food for festive

meals. If you wish you can wrap your donations in clear see-through cellophane.

Chook Pen - Launch 5pm Wed 30th Vaucluse Over the Moon

The chook pen is beside the infants classrooms nudged under a big oak tree for cooling summer shade and warming winter sun. Normally it

wouldn't take too much to build a back yard pen. But this is no backyarder. As an educational institution, many additional features have been incorporated. For starters, it has two pens – one for laying hens, one for brooding chicks. It is large enough for children to go inside, with a gate either side to file through. The hen house has a concrete floor, shaped to a grilled drain so that it can be kept clean and tidy with less water. This is water we've harvested from the rooves. The washings will be collected and used as liquid fertiliser on the vegies – yum yum. The walls are classic Australian corrugated iron, easy to clean and long lasting. The chicken run is big so there is plenty of room to run and scratch. Children will poke last night's greens through a hole in the fence so they (the chooks) get lots of greens. They (the children) will be begging for greens each night to feed the chooks. It's completely fox and vandal proof – impenetrable walls dug deep into the ground and locked gates and locked layer boxes. We're lucky to have a free range chicken farm as the sister farm to the chook pen. They can teach about feeding and hygiene. Our hens can have extended farm holidays.

The Chook Pen will be launched at 5pm as part of the Vaucluse over the Moon festival on Nov 30 when 10 hens will be released into the pen. Don't miss this historic and touching event.

at the Sculptures by the Sea workshop**

Sculptures by the Sea **"By Ollie and Jay"**

Sculptures by the Sea was an amazing experience that we will remember. First 4/5A and 5/6S had a workshop, 4/5A made sculptures out of everyday items like styrofoam and skewers, while 5/6S worked on making maquettes (a down to scale model) out of clay. We mainly used strips to make knotted figures but some people used their creativity for other things. Then everyone broke into groups of about two to six so we could look at the sculptures. Favourite sculptures ranged from giant taps and skeletons, to walk in turtles made of tyre and tiny houses. We think everyone truly enjoyed this excursion.
